

The bar chart displays the monthly distribution of the labor force in the United States from 1967 to 1992. The x-axis is labeled with years from 1967 to 1992 in two-year increments. The y-axis is labeled 'Number of people in millions' and ranges from 0 to 120 in increments of 20. The chart shows a clear seasonal pattern with peaks occurring around July and troughs around January. The overall trend shows a steady increase in the labor force over the period, with a notable peak around 1970 and another around 1990.
